

ORGANIC FARM

The organic farm Marrucheti 82 is located on the top of a hill, which offers a wonderful view of the surrounding Tuscan countryside, from the sea to the mountains.

All 44 hectares of land surrounding the farm are certified organic. All the buildings of the farm are made with innovative energy-efficient materials. A 20Kw solar panel system helps meet the electrical needs of the entire farm. We are very proud to be one of the few companies in Tuscany with the prestigious A4 energy rating.
